

QUICK GRID

2" x 2" OR 2" x 4"

QG-II
2X2 OR 2X4

APPLICATIONS:

Create a beam ceiling effect to provide people scale in high ceiling spaces.
Ideal for floral and produce areas

MOUNTING:

Aircraft cable, stem mount or threaded rod suspension
Max. 8' O.C. suspension points

CONSTRUCTION:

Extruded aluminum housing
Choice of 2"x2" or 2"x4" profile
Wire way cover available for 2"x4", consult factory
Powder coat paint, available in over 200 finishes

LABELING:

NOTE:

Track sections include multiple circuit or single circuit track. Live End is installed at each end for field wiring flexibility. Suspension is required at all connectors with aircraft cable or threaded rod.

PROJECT:

TYPE:

ELECTRICAL

Track sections:
Multiple circuit track, 120v or 277v
Single circuit, 120v
20 amps per circuit

NOTE:

FOR STRAIGHT RUNS:

Suspension to be at beginning and end of run and at all blind splice connections. Order AC-10 or AC-20 as required. Order straight runs by overall length. Maximum length per individual section will be 8 feet.

For straight runs of track, a live end is provided at beginning of run, a dead end is provided at end of run and straight connectors are provided at all blind splice connections.

For mixed runs of track and blank sections,, provide layout sketch. Amerlux will create drawing and provide bill of materials.
