**GFCI**
The 20 amp, 125 volt, ground fault circuit interrupter duplex receptacles are recessed (RM) or surface mounted (SM) to the post or base. The receptacles shall have a cast aluminum UL listed cover. The GFCI-WWIU has a cover that is suitable for wet locations while in use. The receptacle and cover shall mount to an outlet opening, in the post shaft or base, with a gasket and stainless steel screws. Finish will match pole.

**Banner Arms**
Fixed position banner arm for 4" or 5" OD poles (can be used on tapered poles). Aluminum 3/4" NPT coupling is permanently welded at the specified location. 24" extruded aluminum banner arm is removable.

**FPH-4 or FPH-5**
Extruded aluminum holder for 1" OD flag poles. The flag pole holder is set at 45° angle and welded to a field rotatable and height adjustable collar. Available for 4" OD and 5" OD non-tapered pole.

**LR**
Cast aluminum decorative ladder rest slip fits 3" OD pole or tenon. Integral 3" OD cast tenon provided for luminaire mounting (not designed to support ladder or other objects).

**Pole Finials**
Decorative post top finials for use with side mount brackets or when signs are installed without luminaires. Finials attach to 3" OD pole or tenon with 3 set screws.

**Street Signs**
Street name signs, informational and directional signs along with mounting systems are available to complete any street scape. See "STREET SIGNS" page for details.

**Direct Burial Option**
Direct burial extensions are available for most Cast / Extruded poles. Contact factory for details.
