

# GRÜV-HE

**Snap-in-lens \* Made to Measure \* 81% efficient**

Amerlux proudly introduces GRÜV-HE, the 81% efficient architectural recessed linear LED, T5, T5HO, or T8 fluorescent lighting system that gives you more usable, controllable light. Available in standard individual lengths or made to measure lengths, GRÜV-HE is perfect for most offices, institutions and commercial applications. GRÜV-HE delivers a steel upper housing with extruded aluminum side rails for clean, straight runs and a snap-in lens engineered for visual comfort with the ultimate blend of performance and efficiency.

To learn more about GRÜV-HE please call **973.882.5010** or visit us at **[amerlux.com](http://amerlux.com)**.
