

Standard Plus

**The best alternative
to made-to-measure.**

Standard Plus

Welcome to wall-to-wall innovation.

No matter how exact your vision and drawings for an installation may be, once on-site, measurements often deviate from the original blueprints. Even a fraction of an inch divergence can throw a whole project off schedule, wasting time and adding costs.

Standard Plus changes the game.

Our new field-customizable Standard Plus systems are revolutionizing the way the industry approaches linear run lengths.

Designed to work with Gräv® 1.5"–6", the 6" Standard Plus field-cutttable bracket makes your installation look perfect every time.

"Easy-install" applications.

Made-to-measure looks.

Standard Plus is as close to custom as you can get without adding extra cost or longer lead times. Your ceilings look perfect, with no gaps or errors—just smooth, clean, and beautifully lit.

For more information visit us at amerlux.com/standardplus.

Standard Plus features include:

- Fits Gypsum Board, 9/16" Slot GRID, and 9/16" T-GRID ceilings
- Snaps into place easily from below
- Cut to suit
- No filler sheetrock, no unusual tiles, no aggravation
- Gets you as close to the wall with a standard fixture
- Save 35% over made-to-measure
