

Acorns & Globes Diffusers

PROJECT:

TYPE:

Features

Acorn & Globe diffusers available in various shapes and sizes. Constructed in a choice of Polyethylene, Polycarbonate, Acrylic or DR Acrylic materials, depending on cost factors and aesthetic features desired.

Product Overview

Type: Acorn Ornate, Acorn Pointed, Globe
Material: Polycarbonate or Acrylic
Sizes: Various
Color: Clear or White

Fixture Summary

Material Properties:

Acrylic (AC): Lower cost and heat resistance. Available in clear or white colors with a glossy glass like appearance. Acrylic shows virtually no yellowing over time. Much more fragile than PC or DR.

Polycarbonate (PC) - Higher cost and most heat tolerance. Available in white or clear, with a glossy, glass like appearance. PC will yellow over time but is very good for vandal prone areas.

DR Acrylic (DR) - Higher cost and good heat resistance. Much slower yellowing than PC and higher breakage resistance than AC.
