AMERLUX ® ADAPT. ABILITY.™ | INSTALLATION INSTRUCTIONS SHEET #: 689-0713

LIGHTING SOLUTIONS

SPEC. SHEET
REFERENCE:
FINO-FLG

Fino Wall - Flanged

GB Wall

Page 1 or 2

WARNING - RISK OF FIRE AND ELECTRICAL SHOCK. FIXTURE MUST BE INSTALLED BY A QUALIFIED ELECTRICIAN ONLY. FIXTURE IS INTENDED FOR INSTALLATION IN ACCORDANCE WITH THE NATIONAL ELECTRICAL CODE, LOCAL AND FEDERAL SPEFCIFICATIONS. DISCONNECT POWER AT ELECTRICAL PANEL BEFORE SERVICING . RETAIN THESE INSTRUCTIONS FOR MAINTENANCE REFERENCE.
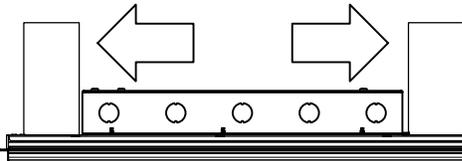

Individual / BoR Frame Installation.
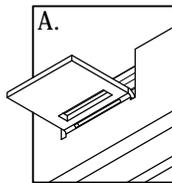

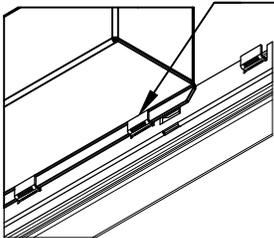

1. Prepare a cutout in the wall:

Individual - $3\frac{5}{8}$ " x (Length of Fixture + $\frac{3}{16}$")

Runs - $3\frac{5}{8}$" x (Length of Fixture + $\frac{3}{8}$")

2. Align driver box (If Required): Remove screws and slide Driver Box Left/Right until it is aligned between studs. Remotely Driven fixtures will have a small splice box which can be adjusted in the same fashion.
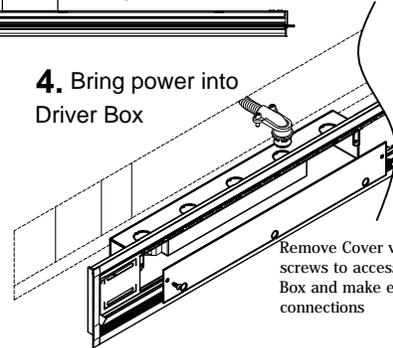

3. When box is aligned:
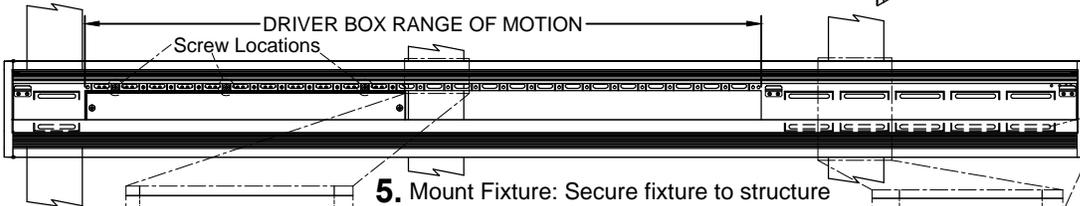

A. B.

Bend tab out, insert driver box.

Bend tab back around driver box.

4. Bring power into Driver Box

Remove Cover via (2) screws to access Driver Box and make electrical connections

← DRIVER BOX RANGE OF MOTION →
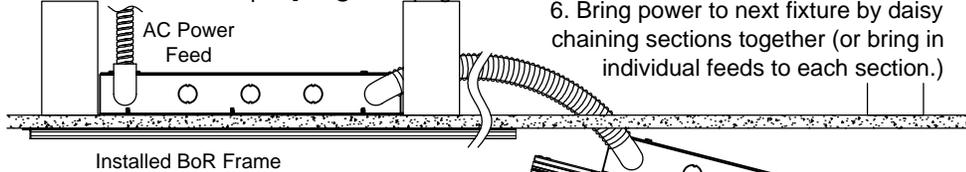

Screw Locations

DO NOT USE
Lower row of slots.

5. Mount Fixture: Secure fixture to structure (studs) via provided slots using **flat head** screws (by others). If fixture does not intersect any structure, blocking must be added (by others).
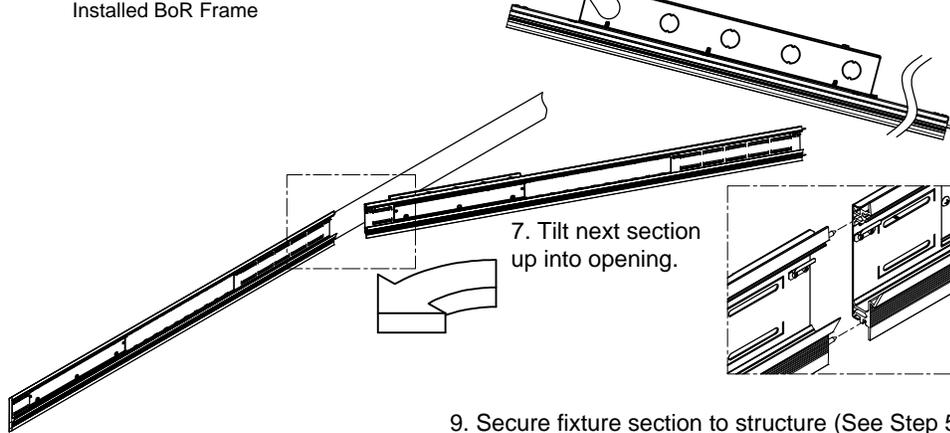

Flathead Screws (By Others)

Amerlux, LLC. - 178 Bauer Drive, Oakland NJ 07436 - T: 973-882-5010 - F: 973-882-2605

Continuous Run (MoR / EoR) Installation:

Install BoR: Follow steps **1 - 5** from page one

AC Power Feed

Installed BoR Frame

6. Bring power to next fixture by daisy chaining sections together (or bring in individual feeds to each section.)
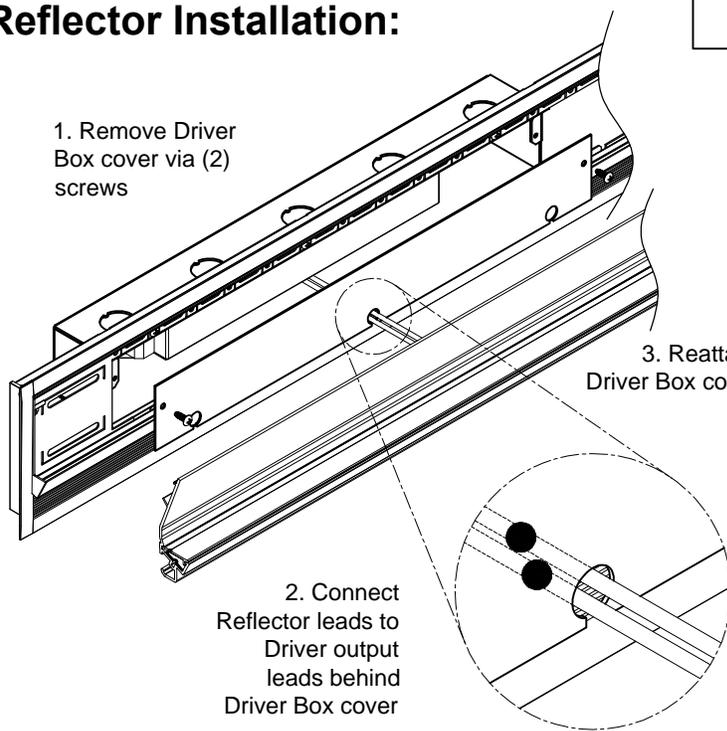

7. Tilt next section up into opening.

8. Slide section toward already installed fixture ensuring alignment pins insert into appropriate hole.

9. Secure fixture section to structure (See Step 5)

Reflector Installation:

1. Remove Driver Box cover via (2) screws

3. Reattach Driver Box cover

2. Connect Reflector leads to Driver output leads behind Driver Box cover

4. Install Reflector

A: Feed all excess wiring into driver box

Spring

Reflector

B: Insert reflector at angle

C: Press reflector Down and In until it "snaps" into spring

Wireway Channel

(Make sure wiring falls in channel, and does not interfere with reflector)
