

Energy Star Approved

Crisp · Precise · Brilliant

## The Shortest Distance Between Style and Savings is *NOT* a Straight Line.

The Energy Star Approved Contour Track Heads will help you achieve maximum performance and highest returns on *energy savings* and rebate incentives.

With Amerlux Contour track heads, your produce aisles will attract the eye as never before. The Contour line is available from 12 to 40 watts, resulting in **outstanding performance in beam control and color consistency**. 34W and 40W track heads are the first approved in the latest Energy Star Approval Program (V1.1).

Amerlux created the Contour Line as an Energy Star partner, enhancing our customers ROI via maximum energy savings, lower maintenance costs, and top rebate incentives. Utility approved and highly popular, this Amerlux system beautifully confirms that the shortest distance between style and savings definitely is... **Contour**.
